PROFESSIONAL SUMMARY

Junior Software Engineer with hands-on experience in front-end development and RESTful API integration. Skilled in designing and implementing user interfaces, managing data flow between client and server, and collaborating in agile development environments. A Computer Science graduate with strong knowledge of database design and programming, seeking to expand into full-stack development and contribute to building scalable, high-quality web applications.

SKILLS

- Languages: HTML, CSS, JavaScript, TypeScript, Python
- Frameworks & Libraries: React.js, Node.js
- Databases: SQL, MySQL, PostgreSQL, MongoDB
- Backend & APIs: RESTful APIs, JSON, Authentication (JWT), CRUD
- Version Control & Deployment: Git, GitHub, Vercel, Netlify
- Development Tools: Postman, npm/yarn
- Design & Architecture: Responsive Design, MVC Architecture, Component-based Design
- Methodologies: Agile, Scrum, Git Workflow, Code Review

WORK EXPERIENCE

2024 – August 2025
GLEAN ASIA CO., LTD

Software Engineer

- **Liferay CMS** — Developed and maintained production websites, allowing organizations to manage and update their content independently.
- **React** — Built and refined frontend components during the development stage.
- **REST APIs** — Integrated frontend and backend services to enable reliable data communication.
- **Make Automation** — Built automated workflows to transfer and synchronize data between different platforms.
- **Databases** — Managed and retrieved application data to support backend operations.
- **Client Support** — Investigated technical issues, coordinated fixes, and helped maintain system reliability.

2021 – 2023

Department of Social Affairs, Veterans
and Youth Rehabilitation, Phnom Penh
(DoSVY, Phnom Penh)

Technical/IT Support

- Provided technical support and troubleshooting for computer software and hardware issues.
- Installed and configured Windows operating systems and other applications.
- Assisted staff in resolving IT-related problems efficiently.

2023

Cambodian Democratic Students
Intellectual Federation (CDSIF)

Volunteer

- Participated in organizing and supporting national community events.
- Assisted in coordinating large-scale activities and ensuring smooth event operations.

EDUCATION

2021 – 2024 : Bachelor of Computer Science and Engineering, Royal University of Phnom Penh

2023 : Big Data Training, Samsung Innovation Campus

2022 : Coding & Programming with Python, Samsung Innovation Campus

2020 : BacII from MoEYS Cambodia

2018 : Diploma from BELTIE International School

LANGUAGES

Khmer: Native

English: Conversational
